

tubics is an ambitious software startup making YouTube work for business. In order to strengthen our team we are looking for a motivated

JavaScript Frontend Developer

The ideal person we want to work with should have

- a strong track record in Angular 5 and TypeScript
- a sense for excellent code quality and the ability to solve complicated problems
- and an interest in digital video and/or SEO.

Apart from salary we offer

- options to company shares,
- the opportunity to be part of a solid business model with the chance to sky-rocket and
- a good working atmosphere.

tubics has a proven business model within the thriving online video marketing business, well-known customers and a strong co-founder team skilled in entrepreneurship, sales, technology and product development.

Salary : Between EUR 2400 and EUR 3500 gross/month according to qualifications and experience.

Looking forward to meeting you!
