

HeartBeat.bio is a recently founded drug discovery company focused on the development of a **high-throughput 3D screening platform for heart failure and cardiomyopathies**. Our core technology is based on the **world-wide first self-organizing cardiac organoids (Cardioids)** which resemble the human physiology of a heart chamber in a way that allows for the cost-efficient and large scale *in-vitro* analysis of crucial clinical parameters associated with cardiac diseases. The **Cardioid platform technology has the potential to revolutionize the current cardiac drug discovery paradigm**.

We work in a dynamic and collaborative environment at the **Vienna BioCenter (VBC)** and are looking for highly motivated candidates that share our excitement for human organoids. Currently, we are seeking a **Laboratory Manager** who:

- Has completed a master's degree (or equivalent) in the life science fields
- Has excellent communication and organizational skills
- Is reliable and is able to support laboratory operations
- Enjoys working in a high-performance team

Your duties will include:

- Supporting laboratory operations (ordering, inventory, records)
- Assisting with efficient administration and project management
- Maintaining procedures, safety guidelines, training manuals, laboratory space

Since we are working in an international scientific environment, good English and German language skills are required. Good command of Microsoft Office is necessary.

The annual gross salary is € 32,000 or higher depending on qualification and experience for full time employment (40h/week).

If you're interested in joining our exciting new company, please send your CV, letter of motivation and, if possible, the names and contact details of two references to **Dr. Pablo Hofbauer** (pablo.hofbauer@heartbeat.bio) by May 31st 2021.

We look forward to meeting you in person.
